WORK EXPERIENCE

Momino

Aug 2018 — June 2021

Junior Quality Assurance

During this period I've been working as a QA for a small local startup helping families to organize their lives better.

- Helped to prepare test plans and identified testable parts of the future application.
- Performed manual tests and provided developers with an accurate feedback.
- Conducted a continuous review of unit and integration tests written by developers.
- Helped to write simple UI tests using Selenium (python).
